Vancouver capitalists are succeeding in their attempts to get potash from kelp.

Sties, Granulated Eyelids, Sore and Inflamed Eyes healed promptly by the use of ROMAN EYE BALSAK.—Adv.

War Displaces Indian King.

The little king of Annam, a French possession in farther India, who is distrusted because of alleged friendliness to Germans, has been dethroned. Paris papers have been discussing the question of what is to be done with him. His father and his suite, as well as himself, must be placed in a home far from the comic opera throne that he occupies. France has many and widely scattered possessions beyond the seas. There has been much hesitation as to whether he should be sent to Martinique, Guadeloupe, Senegal, Madagascar or Reunion. All these places have set forth the advantages that attach to each one separately, and the disadvantages of the others. This for the reason that the exiles will have money to spend, over 100,000 francs yearly. It is quite likely that the Reunion Isle, in the Indian ocean, will receive the royal boy and his retinue and receive the benefit of the revenue that will be expended for his "board and keep."

Demand for Participation.

"Why do women want to vote?"
"Because," replied Miss Cayenne, "we want to find out by experience how men have managed to make so many political blunders. It's always easier to put up with mistakes when you've had a hand in making them yourself."

Riches avail not in the day of wrath.

One fourth of Germany is wooded.

"Another Article Against Coffee"—

In spite of broad publicity, many people do not realize the harm the 2½ grains of caffeine in the average cup of coffee does to many users, until they try a 10 days' change to

POSTUM

Postum satisfies the desire for a hot table drink, and its users generally sleep better, feel better, smile oftener and enjoy life more.

A fair trial—off coffee and on Postum—shows

"There's a Reason"

RETURNS FROM STEERS

Results Secured From Various Breeds and Types.

Light-Fed Lots Make Considerably Higher Gain and Greater Returns—Grain Profitably Replaced by Molasses.

At the Canada experiment farms, according to a report received recently by the department of agriculture, steers of various breeds and types

Hereford Steers.

were fed from 80 to 100 days, it being found that steers fed quickly gave a good margin of profit, that the dairy type of feeder may be profitably finished in from three to five months, according to age, and that many steers slaughtered in November and December would pay profitable returns if fed a few months longer.

In steer-feeding experiments to determine the effect of heavy and light feeding it was found that the daily rate of gain was considerably higher and the greater profit was realized from the light-fed lots. Grain was profitably replaced by molasses when used in only a limited amount. Molasses appeared to have a more beneficial effect when fed to good stocker than to good butcher cattle getting the same amount of grain. Molasses showed a profit over a full-grain ration.

Eight steers fed 140 days and given freedom in box stalls made a gain of \$56.17 as compared with \$3.23 from eight steers tied. In a comparison of corn silage and dry corn for fodder as roughage for fattening steers fed five months, the former made an average daily gain per steer of 1.86 pounds, the latter of 1.5 pounds. Four lots of

Feeding Young Steers.

steers fed 140 days, lot 1 receiving oat straw, mixed hay, oats and barley, fed outside; lot 2 the same as lot 1, but fed inside; lot 3 the same as lot 1 with the addition of silage, and lot 4 fed mixed hay, silage, roots and grain (bran, peas, oats and barley), fed inside, made average daily gains per head of 1.95, 1.93, 2.47 and 2.82 pounds, respectively.

Be Kind to All Animals.

The boy who tortures a helpless beast is always to be distrusted. He has a cruel streak through him which kindness and education may remove—and then again it may not.

Rest for the Cow.

Every cow should have at least six weeks' rest from giving milk. If you think this is too much, keep on milking right up to the time the cow is fresh again, and see how soon she will begin to fail. Six weeks is none too long.

Hog Off" Cornfield.

Are you planning to "hog off" a part of that corn crop this fall? Demonstration tests show that an acre of corn will give greater returns when fed in that way than in any other.

Successful Dairyman.

In nearly every case a successful dairyman is a man who finds pleasure in handling and caring for cattle. Kindness is a real factor in milk production.

Give Stock Extra Feed.

Give the colts, calves and milch cows a little extra feed while the grass is in poor condition.

Don't turn a good cow off just because she is getting old.

"THE FARMER'S INCOME"

A little pamphlet has recently been issued by the government, entitled, "The Farmer's Income." In this bulletin it is shown that the average farmer has an annual income of \$600. The street railway man has an income of \$674. The ordinary factory worker has an income of \$460. It is also stated in the \$600 income from each farm only \$200 of it is in cash. The \$400 is represented in milk, cream, vegetables, etc., obtained from the farm. There is an opportunity for the farmers to have a much larger income than \$200 cash.

BEARING WHEEL FOR A GATE

Wheel Arranged So That Weight Is Carried on the Ground Instead of on the Hinges.

Fitting a wheel to the lower edge of a gate so that the weight is carried on the ground instead of on the hinges, as shown in the sketch, will prevent the breaking of the hinges as well as jarring the supports out of plumb, writes Arthur Anderson of Batavia, Ill., in Popular Mechanics Magazine. The gate was fitted into place in the ordinary way, the ground in front of it

Wheel for Gate.

was smoothed and leveled to give a good bearing surface for the wheel, which was taken from an old wheelbarrow. It was fixed to the lower corner of the gate with sheet-metal straps, bolted through the boards.

PHYSIC FOR ALFALFA BLOAT

Successful Stockman Has Used Sal Hepatica for Several Years With Much Satisfaction.

Why not try a physic for cattle which bloat on alfalfa? A successful stockman has tried sal hepatica satisfactorily for several years. A dose of two tablespoonfuls is given in a pint of warm water as soon as the bloat is discovered, and it gives relief in a few minutes. This looks like an honest effort to mitigate the great evil of bloat and is well worth a trial, for all dairymen have lost valuable cattle from this complaint, which may have its origin in dyspepsia or indigestion; but all require at least temporary relief to first save the cow and then cure her.

Economical Team for Farm.

Experience with two-horse and four-horse teams proves conclusively that the latter is by far the more economical unit for most farm work. A man handles four horses as well as two horses and does twice the work. This reason will stand as long as horse flesh is cheaper than man flesh. The principle is equally applicable to steeds made of steel and iron.

High-pressure farming is more profitable because it saves the most expensive item on the farmer's ledger—human labor. No tractor is likely to be widely successful that will not develop power equivalent to eight 1,400-pound horses.

Sheep Are Much Neglected.

Sheep would be a source of profit on many farms where they have not been given attention. They are close-grazing animals and as such will thrive on short grass and rough land where other animals would find it difficult to live. Why not get a few sheep and give them a chance on your farm?

There Is Profit in Calves.

Don't sell the young calf for someone else to feed and grow it into money while you have roughage going to waste.

Better by far buy up the calves that others offer even if you do pay a few dollars more than they are worth. They will soon be worth all you paid and more.

Silage Fed to Calves.

Feed silage to calves as soon as they will eat, picking out for them the leafy portions at first.

Applying Caustic Lime.

Caustic lime should never be applied to land that is to be planted to potatoes the first year.

W. L. DOUGLAS

"THE SHOE THAT HOLDS ITS SHAPE"

\$3.00 \$3.50 \$4.00 \$4.50 & \$5.00 FOR MEN AND WOMEN
Save Money by Wearing W. L. Douglas shoes. For sale by over 9000 shoe dealers. The Best Known Shoes in the World.

W. L. Douglas name and the retail price is stamped on the bottom of all shoes at the factory. The value is guaranteed and the wearer protected against high prices for inferior shoes. The retail prices are the same everywhere. They cost no more in San Francisco than they do in New York. They are always worth the price paid for them.

The quality of W. L. Douglas product is guaranteed by more than 40 years experience in making fine shoes. The smart styles are the leaders in the Fashion Centres of America. They are made in a well-equipped factory at Brockton, Mass., by the highest paid, skilled shoemakers, under the direction and supervision of experienced men, all working with an honest determination to make the best shoes for the price that money can buy.

Ask your shoe dealer for W. L. Douglas shoes. If he cannot supply you with the kind you want, take no other make. Write for interesting booklet explaining how to get shoes of the highest standard of quality for the price, by return mail, postage free.

Cincinnati, Ohio

Mexico has 15,251 miles of railway and 46,112 miles of telegraph lines.

What the Doctor Knows

KIDNEYS MUST BE RIGHT TO INSURE HEALTH.

Few people realize to what extent their health depends upon the condition of the kidneys.

The physician in nearly all cases of serious illness, makes a chemical analysis of the patient's urine. He knows that unless the kidneys are doing their work properly, the other organs cannot readily be brought back to health and strength.

When the kidneys are neglected or abused in any way, serious results are sure to follow. According to health statistics, Bright's Disease, which is really an advanced form of kidney trouble, caused nearly ten thousand deaths in one year, in the State of New York alone. Therefore, it is particularly necessary to pay more attention to the health of these important organs.

An ideal herbal compound that has had remarkable success as a kidney remedy is Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

The mild and healing influence of this preparation, in most cases, is soon realized, according to sworn statements and verified testimony of those who have used the remedy.

When your kidneys require attention, get Swamp-Root at once from any pharmacy. It is sold by every druggist in bottles of two sizes—50c and \$1.00.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper. Adv.

Billy Sunday converts in Syracuse, N. Y., cost \$61,854.00, or \$3.80 each.

Every Woman Wants
